

Roeland Park
1 March 2010 Agenda
Building Committee Meeting

- A. Pricing review by Chris Stanton, McCown Gordon – discuss what is in and what is out
- B. Civil Review by Larkin update
 - a. Some concern of surface drainage by sallyport. Although it is tight, they feel that the piping could likely be reworked to “daylight” into the parking lot vs. the northeast corner of the lot.
 - b. As a good option, they thought the area drain and/or new roof or trench drains could be combined with the existing internal drain coming down near the drinking fountains.
- C. Finishes board review
- D. General presentations/renderings review
- E. Current Phase I Design Schedule (Tuesday lunch meetings) – please note this a working schedule
 - a. March 1st - Design Development Pricing to Council with finishes and renderings review
 - b. March 2nd – Presentation to Council’s Committee of the Whole
