TO: Safety Committee

FROM: Chief Taylor

REF: January Safety Meeting

1. Purchase of two patrol cars – The police department did not purchase any police cars in 2008 because there were no cars ready to be traded out of the fleet. Now there are two cars that have high mileage and need to be replaced. Replacement of police cars is budgeted every year as capital outlay and two were anticipated in the 2009 budget.

The City of Roeland Park has a history of participation in the Mid-America Council of Public Purchasing (MACPP) for the purchase of police vehicles. Shawnee Mission Ford has once again been awarded the bid for police package vehicles. The bid sheet is attached including the base price and requested options. The options are:

Police Power Pigtail	\$25.00
Power Driver Seat	\$360.00
Keyed Alike	\$50.00
Heated Exterior Mirror	\$35.00

The request is made to purchase two full-size Ford Police sedans. Both would be category “B” Total Standard Vehicle w/non-street appearance with black and white paint. The cost for each vehicle with options is \$22,155 for a total cost of \$44,310.

2. Department Needs Assessment – A copy of the department needs assessment presentation will be available in disc form and a second e-mail version will also be available.
